EcNow Tech Company Commitment and Profile

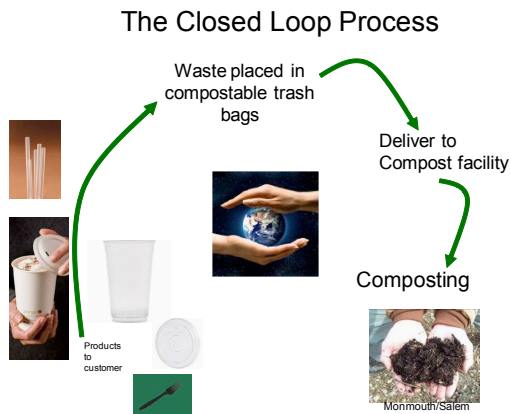

Mission Statement

To innovate, develop, manufacture and distribute green products using renewable and recyclable resources, green designs, processes and end of life solutions that ensure a sustainable future for our children and the environment.

				
Renewable Resource ?	Oil Based	Oil Based and Recycled	Renewable Resource EcNow Tech Today !	Renewable Resource EcNow Tech Tomorrow !
End of life				
Toxicity	Benzenes	Benzenes	None	None
Carbon Footprint	US Refining	US Manufacturing	US Manufacturing	US Manufacturing
Overall				

Closed Loop Composting Solutions

Our goal is to ensure all of our products will be composted instead of being sent to the landfill. We enable closed loop composting solutions for EcNow Tech customers.

Green Restaurant Accesories

Mabu Clothes

Tired of the smell that occurs after you use a rag to wash counters and dishes. These clothes have a natural material which prevents bacteria from growing. Just rinse and reuse.

Pot Scrubs and Sponges

Natural pan scrubbers made from natural, compostable materials. They work great and when they've reached the end of the product life you compost them

Ceramic Coated Pans

No more PTFE (Teflon) or harsh chemicals to worry about. These pans are aluminum coated with a non-stick ceramic coating. We field tested them with area chefs and they hold up to the toughest abuse, remain non-stick and are non-toxic.
